REMARKS

In the Drawings

The Examiner objected to Figure 14 in that it should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. In addition, Figure 9 was objected to because of a non-English legend appearing thereon. Applicants have corrected both Figures herein. Annotated Sheets and Replacement Sheets are enclosed herewith.

In the Specification

The specification has been objected to for the language "almost truck" appearing on page 16, line 14. Applicants have amended the specification to clarify the text by deleting "an almost truck" and inserting therefore --a race track, positioned--. It will be noted from Fig. 1 that opening portion 22 assumes the shape of an oval race track. It is apparent that the word "truck" appearing in the originally filed application should have been --track--. In any event, the newly amended --race track-- language is clearly supported by the configuration of element 22 in Fig. 1 as filed. Two additional amendments have been made to the specification to correct minor translational and/or grammatical errors. No new matter has been added. Entry of these amendments is respectfully requested.

In the Claims

Claims 1-35 are currently pending in the application.

The claims have been objected to because they contain reference characters which should be enclosed within parentheses so as to avoid confusion.

Applicants have amended the appropriate claims to enclose the reference characters within parentheses..

In addition, claims 7 and 14 are objected to in that "the metallic fin" should read --a metallic fin--. Applicants have amended claims 7 and 14 accordingly.

Claim 21 stands rejected because the claim is incomplete. Applicants have amended claim 21 accordingly.

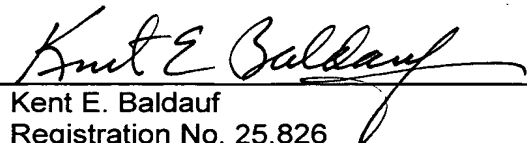

Conclusion

Based on the foregoing amendments, Applicants believe that the application is now in condition for allowance. Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
